BE THE BEST HOME ON THE BLOCK

We understand beauty and function matters. Our siding system is designed to hide nail heads to create a flawless finished home.

**“DIAMOND KOTE IS
TRULY THE SUPERIOR
FINISHED SIDING
PRODUCT ON THE MARKET!”**

-Thompson Construction

30-YEAR NO FADE SIDING

Diamond Kote® Building Products leads the industry as the #1 brand of pre-finished LP® SmartSide®. Our complete siding system is backed by a 30-Year No Fade Warranty, so you can feel confident every time you pull in the driveway.

BUILT ON: LP® SMARTSIDE®

Built On: SMARTSIDE[®] TRIM & SIDING

Our products are built on LP[®] SmartSide[®], an engineered wood product treated with a SmartGuard[®] process. This allows our siding to withstand extreme temperatures, heavy humidity, freeze/thaws and everything in between.

Bedrock Siding, Custom Color Shakes with White Trim

GREAT WARRANTY

LP[®] has your back with an industry-leading warranty that offers exceptional peace of mind for your home. A 5/50-Year Limited Warranty that provides a 5-year, 100% labor and replacement feature and a 50-Year Prorated Limited Warranty on the product. Visit LPSmartSide.com for complete warranty details.

STRENGTH AT THE CORE

Homeowners can trust LP[®] SmartSide[®] products to resist impact from airborne debris and gain even more peace of mind with a warranty that covers damage from hail, up to 1.75" in diameter.

#1 RECOGNIZED BRAND OF PRE-FINISHED LP® SMARTSIDE®

EXTRA PROTECTION

SmartGuard® helps LP® SmartSide® products withstand extreme temperatures, heavy humidity, arctic freeze thaws and everything in between. This process treats to the core with four components of protection that add strength and resist fungal decay and termites.

RENEWABLE RESOURCE

All products are made with wood, a renewable resource, grown and gathered under strict Sustainable Forestry Initiative® standards. Plus, all binding agents and resins are low-emitting.

THE BEST FINISH IN THE INDUSTRY

Graphite & White

FORMULATED FINISH

Diamond Kote® pre-finish is an advanced paint technology, using metal oxide colorants extracted from rocks. These natural pigments don't fade over time, keeping your siding vibrant and protected from destructive ultraviolet sun rays, which causes other paints to fade quickly.

**“DIAMOND KOTE IS
THE BEST SIDING PRODUCT
I HAVE WORKED WITH.”**

-Jim Langendorf
Langendorf Construction LLC

SHOWN UNDER 40X MAGNIFICATION

Diamond Kote® VS Other Finishes

QUALITY PAINT MATTERS

Under 40x magnification, there are significant differences between the Diamond Kote® pre-finish and other finishes. Other finishes are porous, resulting in a dull finish that traps dirt and moisture and can lead to premature failure.

LOW MAINTENANCE

Diamond Kote® pre-finish is designed to be low maintenance, resisting the build up of dirt and grime while locking out moisture. Being easy to clean, combined with a durable finish reduces overall maintenance.

WE INVEST IN OUR TECHNOLOGY

SUPERIOR MANUFACTURING

Our fully automated process with robotic sprayers, advanced finish and a clean indoor environment creates a quality scratch resistant product that cannot be duplicated on site or with flood coating applications.

***“DIAMOND KOTE IS TRULY
THE SUPERIOR FINISHED SIDING
PRODUCT ON THE MARKET.”***

-Thompson Construction LLC

ASTM TEST D3359-09 - STRENGTH OF BOND

ENHANCED DURABILITY

ASTM Test D3359-09 tests the bond strength between the substrate and paint. The industry standard states if 20% or less paint is removed from the substrate it passes the test. Diamond Kote® exceeds beyond the standard.

Note: ASTM D3359-09 Standard Test Methods is for Measuring Adhesion by Tape Test

LONG TERM PERFORMANCE

We design and test all of our products for maximum protection against the elements. Enjoy a durable scratch-resistant finish that withstands the test of time with no peeling, chalking or fading.

**YOUR HOME
YOUR SANCTUARY**

INVEST TODAY SAVE TOMORROW

Other prefinishers use standard exterior house paint which requires periodic maintenance and recoating of the exterior siding. A minimal investment in Diamond Kote® pre-finished siding today will save you tens of thousands of dollars in repainting costs.

READY TO RESIDE

“Our vinyl siding was only 11 years old, it had faded and cracked making it look like it was 3 times that old. After we pulled some of it off the house, we found several areas of structural sheeting rotted.” - *Kellie C, Homeowner*

32 Above shows faded vinyl siding Kellie and her husband are ready to replace.

DIAMOND KOTE® DIFFERENCE

“We choose Diamond Kote because of the rich look of traditional wood siding along with the 30-Year No Fade Finish. Our home looks so much better than before!” - *Kellie C, Homeowner*

DIAMOND KOTE[®]

Siding System

COMPLETE SYSTEM

DESIGN, FORM & FUNCTION

Choose a complete siding system designed to work together for lasting durability. We offer an array of design and styling options to turn your dream home into a reality.

WE'VE GOT YOU COVERED

ADDED SECURITY MEASURES

Invest in your home and add a series of siding components to provide the best defense against water penetration while maintaining warranty parameters.

Request that your contractor use the weatherproofing package below!

Diverter Flashing

RIGIDSTACK™ LAP SIDING

DESIGNED TO
STACK & LOCK

Midnight, Graphite & Light Gray

RESISTS IMPACT

From backyard baseballs to heavy rain and hail storms, RigidStack™ withstands impact to protect your home. Watch the NASA impact test video at rigidstack.com

EXTREME STRENGTH

Studies show that RigidStack™ siding is 375% stronger than standard lap siding, creating extreme strength for wind resistance.

STRONG & SMART

RigidStack™ is designed with a spline to stack and lock together for ultimate performance. The strength and beauty of RigidStack™ siding will accentuate the architecture of any home.

WEATHER THE STORM

Feel secure with RigidStack™ siding that stands up to extreme weather in all climates, including hail warranty up to 1.75" in diameter.

NEW SMOOTH OPTION

Choose either our beautiful textured cedar woodgrain or our new sleek and smooth siding option to capture the feel of your home.

RIGIDSHAKE™

ELEVATE YOUR STYLE

Diamond Kote® Siding System includes a family of distinctive shakes to help enhance your home's architectural elements.

French Gray & White Trim

Biscuit

BUILT TO PROTECT

Using the same technology as RigidStack™ siding and built on the same durable substrate for a low maintenance design that lasts longer than real cedar shingles.

CHOOSING THE RIGHT DESIGN

It's important to think about the style, architecture, and time period of your home. Cape Cod and Colonial style homes use a straight edge shake, while a Craftsman style home would typically use a staggered edge shake.

HISTORIC COLLECTION

REVIVE THE PAST

Highlight the historical look of your home with a classic feel featuring timeless designs.

Biscuit, Pewter Green & Biscuit Trim

Olive & White Trim

Biscuit & Cinnabar Trim

CAPTURE A PERIOD IN TIME

Victorian homes became popular in the mid 1800's and typically featured decorative Scallop shapes. Choose the look of an era and say goodbye to the expensive up keep with this low maintenance option.

STORYBOOK LOOKS

Neatly sculpted rows of gable ends, dormers and other architectural features come to life with Octagons.

PANEL SIDING

ADDING TEXTURE

Create visual interest with texture or vertical accents to accentuate and make your home appear larger with more dimension.

BOARD AND BATTEN

Emphasize the vertical areas on the exterior to create a rustic farmhouse inspired home. Varying the width of the trim with different sizes or spacing can create a variety of styling options.

GROOVED PANELING

This vertical siding style adds interest giving it a taller appearance to the home, drawing the eye upward. Choose from two different widths to customize the look to your home.

Style tip: 8 inch on center panels complement wider facades verses 4 inch on center panels.

**"STYLE IS A WAY TO SAY
WHO YOU ARE WITHOUT
HAVING TO SPEAK."**

- Rachel Zoe, Designer

Pelican & White Trim

PROTECTIVE TRIM SYSTEM

CATCH YOUR EYE

Our protective trim system offers solutions that deliver value for both builders and homeowners. Accent your home with trim without drawing your eye to the wrong places, such as nail heads or bad touch up.

French Gray, Seal & White Trim

Custom Color & Sand Trim

NAIL FIN TRIM

Trim with nail fin is designed to enhance the look around windows, doors, and gables while concealing fasteners for a flawless appearance to your home.

NAIL FIN OUTSIDE CORNER

We offer a 4 inch and 6 inch widths giving you design options while eliminating the need to face nail. Face nails lead to touch up painting and other maintenance issues.

STYLE TIP

Set yourself apart from the neighborhood! Add Rosettes to your trim and highlight unique characters of a Victorian style home. pg. 50

NAIL FIN INSIDE CORNER

Complete your trim package by choosing a color coordinated inside corner, which typically matches the siding color.

ARCH TRIM

Bring arched windows or entry ways to life with a seamless design that will perform better against water intrusion. Accent with an optional keystone to draw more attention to the architectural style of your home.

SOFFIT + FASCIA

PROTECT YOUR INVESTMENT

A significant body of research has revealed that 47% homes in the U.S. do not have proper ventilation.

Lawrence Berkley Laboratory

Coffee & White Trim

Cinnabar & White Trim

POWER OF PROBLEMS

Poorly ventilated homes contribute to higher energy costs and moisture problems. Moisture build up could lead to mold or mildew, which may lead to respiratory issues.

SOLUTION: PROPER VENTILATION

Our solution is to provide a product with a high (net free air) rating of 10 NFA to work with your roofing vent system. Commonly used vinyl and cement systems only average 5-7 NFA which may not meet roof warranty standards.

White Trim

Custom Color Tan & Biscuit

TOP IT OFF RIGHT

Create a dramatic effect by finishing your overhangs, porch, and ceilings with the same woodgrain look. Be the talk of the block with a soffit that is as distinctive as the siding.

STRONGER & THICKER PRODUCT

Thin metal fascias are easily damaged by hail and storm debris or could blow off in the wind. Just like our siding, our fascia resists impact and can hold up against the damaging effects of mother nature. Choose a whole siding system with matching woodgrain for a high end feel.

RIGIDMOUNT™

BEAUTY IS IN THE DETAILS

RigidMount™ offers a full line of mount blocks to keep your home beautiful! These details will blend in with the overall look of your home.

KEEP WATER OUT

Pipes and utilities penetrate the home for everyday functions - water should not. RigidMount™ includes built-in water management and nail fin for a flawless look.

INTEGRATE STYLE & FUNCTIONALITY

Choose a professional product that will blend into your exterior and feel the satisfaction of a job done right. Insist on using RigidMount™ blocks for your home.

STARTER BOARD

PERFECT TRANSITION

Providing the perfect transition between the ground and first course of siding to maintain installation requirements.

PLAN FOR PROTECTION

Don't dig up your prized landscaping after all your hard work. Using starter board helps protect the bottom of your siding from moisture. New homes can benefit as well, so any future landscaping plans don't impose on your siding.

BEAUTY FROM THE GROUND UP

Call out the frame of your home by making your starter board the same color as your trim. Otherwise, for a more subtle transition match the starter to your siding.

DIAMOND KOTE®

Exterior Accents

STYLE YOUR WAY

Each home is unique - just like each family. Show your style by adding decorative elements to the outside of your home for a distinctive and personalized touch.

PRO-POST WRAP™

MAKE A STATEMENT

Set the stage with a grand entrance for your home and upgrade old peeling posts with a new Pro-Post Wrap™, or add finishing touches to a deck by wrapping pressure treated posts.

BEFORE + AFTER

Bedrock, Custom Color
& White Trim

Custom Color

GRAND ENTRANCE

First impressions are everything. The wood-look and near seamless appearance of Pro-Post Wrap™ help to add style and value to your home. It makes an incredible difference to your home's look.

OUTDOOR LIVING

Leave the neighbors talking after your next barbecue with how stunningly beautiful your home looks. Whether used underneath a deck, on a porch, or outdoor living space, Pro-Post Wrap™ can provide an unforgettable impression on your home.

ROSETTES

CREATE A UNIQUE LOOK

Consider a decorative trim accent to highlight your windows and doors. Transform your home exterior from simplistic to elegant.

AUTHENTIC LOOK & FEEL

Enhance the era of your home with Rosettes that provide high definition curves and a traditional design.

IT'S ALL IN THE DETAILS

Stand out of the crowd by adding an extra touch of style with historical accuracy and architectural elements to bring your exterior to life.

PERSONALIZED RIGIDMOUNT™

UNBEATABLE LOOK

Make your house numbers be as distinctive as your home's siding with the Personalized RigidMount option. Nothing will match your home better!

Coffee & Sand Trim

PERSONALIZE YOUR HOME

Choose from up to five characters (letters or numbers) routed in either black or white. Personalized RigidMount blocks are built on LP® SmartSide® and blend flawlessly with any color siding, even custom colors!

INTEGRATE STYLE & FUNCTIONALITY

Personalized RigidMount blocks includes a built-in water management, which helps reduce the risk of moisture intrusion and a nail flange for a finished look with no sightly nail heads.
