# Classic Composite Series

The Classic Composite Series, a simple system with endless design options, combines four railing profiles into one. It uses a Universal Rail and offers four top rail options: Premier Rail®, RadianceRail®, Trademark Rail™, and Drink Rail that uses a deck board as the top rail. This allows for easy, intuitive ordering with fewer SKUs. Designed for the homeowner who wants an impactful railing design that complements the deck as well as the homes' exterior.

**Drink Rail Guidelines**
- Compatible with all full profile, square-shoulder, standard width (5.5") deck boards from the TimberTech AZEK, PRO & EDGE lines. NOT compatible with scalloped boards (i.e. Terrain Collection, Prime Collection & Prime+ Collection)
  - Narrow width (3.5") boards should be used for between-the-post applications only.
  - Wide width (7.25") boards should be used for over-the-post applications only.
- Compatible with all Classic Composite Series Railing Infills except for glass.
- For Over-the-Post Applications it is important that the deck board be wide enough to completely cover the top of the post sleeve. For Between-the-Post Applications, any post sleeve sizes work.

# Builder Rail

Bring both style and function to your outdoor living space when you choose this mod railing profile. This railing uses a deck board as the top rail, so it's easier than ever to match your decking and railing for a coordinated look. Plus, the over the post installation means your view isn't interrupted with protruding post caps.
