PREMIUM SERIES

Aluminum-Clad Wood  
Windows and Patio Doors

WELCOME

**WINDOWS SHOWN:**

Configuration: Double Hung

Exterior Color: Craftsman Bronze

Hardware Finish: Rustic Bronze

Features: Insulated Low-E with Argon

# A SOLID FOUNDATION TO BUILD ON

When Edward Lee Schield designed his first window in 1955, he set into motion a company built around an inventive spirit. His enthusiasm for innovation defines Weather Shield to this day. After more than 65 years and 33 patents, Weather Shield remains faithfully focused on creating something better and purposeful.

Our quest to bring you the latest and greatest products is firmly grounded in serving the needs of our customers. We're still a family-owned business that believes in listening closely to the people who specify, buy and install our windows and doors. Their input is critical as we strive to improve and perfect every aspect of product design and performance.

Our Premium Series products embrace our founder's vision of combining old-world craftsmanship with innovative designs and materials. This comprehensive collection features

timeless aesthetics with the latest advancements in energy efficiency. The end result is a broad, bold and beautiful palette to help bring your dream design to life.

# WHY WEATHER SHIELD?

## WINDOWS SHOWN:

Configuration: Hinged Patio Door

Interior Finish: White Poly

Exterior Color: White

Glass: Insulated Low-E with Argon

## 5 REASONS TO CONSIDER WEATHER SHIELD

With hundreds of window and door manufacturers to choose from, it can be difficult to distinguish one company from another. We thought it might be helpful to share a few of the things that set Weather Shield apart from the rest.

### 1 Continuous Innovation

At Weather Shield, we never stop searching for ways to improve both our products and our processes. The goal of discovering new and innovative solutions has always been part of our DNA. That's why we have our own dedicated Research and Development Center and the largest onsite test lab in the industry. Not a day goes by when we aren't working on building a better product.

### 2 Best-In-Class Warranty

At Weather Shield, we do more than talk about our dedication to craftsmanship and quality materials. We back our products with a warranty against defects in material or workmanship for a period of 20 years, and against wood rot on all clad products for 30 years\*. So you can be confident you're getting an outstanding product from a trustworthy company.

### 3 Design Flexibility

When you design with Weather Shield, you have options. Our casements alone allow you to create more than 6,000,000 different configurations.

Choose from an impressive array of wood interiors and finishes, along with a myriad of exterior colors. We also offer some of the industry's largest expanses of glass for framing spectacular views. Whatever the style, whatever the size, nobody gives you more choices than Weather Shield.

### 4 Energy Efficiency Without Sacrifice

Through our innovative use of materials and design, we're able to offer industrial strength efficiency with refined appearance. We're very deliberate in our use of energy efficient materials to drive performance where it matters most. We're proud to offer an extensive number of beautifully designed ENERGY STAR® rated products.

### 5 Family Owned and Operated

For more than 65 years, Weather Shield has remained a family-owned and operated company. That allows us the freedom to take a long-term perspective and keep our focus on serving customer needs rather than a singular focus of achieving quarterly financial targets.

As we've grown to become a respected national brand, we've seen technology and materials evolve. But our core values have never changed. Today, we remain dedicated to building long-term relationships and crafting innovative products that meet the needs of our customers.

\*For more specific information regarding our warranty, visit [weathershield.com/warranties](https://weathershield.com/warranties).

# ARCHITECTURALLY INSPIRED, TECHNOLOGICALLY ADVANCED

Our double hung windows represent a one-of-a-kind approach to a popular choice in home design. With the versatility to open from the top or bottom, a breath of fresh air is never out of reach. From robust ventilation to energy efficiency and ease of use, double hung windows are a timeless classic.

### Natural Finish

A **wood jamb liner** covers all mechanical balance systems to create a **tailored aesthetic**.

### Tilt and Release

With **concealed tilt release latches**, nothing comes between you and the view. Recessed into the lock rail, this design element leaves the sash clear of all visible latch hardware.

### Single Handed Ease

The **single dual action lock** allows the sash to be unlocked and tilted easily with one hand – so you can save your energy for the things that really matter.

## All-Wood Double Hung Windows

Our **all-wood products** not only offer excellent durability, but they also offer a level of elegance and historical accuracy that only wood windows and doors can provide. Available in a variety of wood species capable of matching any decor. See full product details at [weathershield.com](http://weathershield.com).

## DOUBLE HUNG WINDOWS

### WINDOWS SHOWN:

**Configuration:** Double Hung

**Interior Finish:** White Poly

**Features:** 5/8" Simulated Divided Lite

**Glass:** Insulated Low-E with Argon

## CASEMENT WINDOWS

### WINDOWS SHOWN:

**Configuration:** Casement

**Interior Finish:** Pine with Fruitwood Stain

**Features:** 7/8" Simulated Divided Lite

**Glass:** Insulated Low-E with Argon

## THE ELEGANT BEAUTY OF CLASSIC DESIGN

Our casement windows are a marriage of great looks and uncompromising performance. Hinged on the side to open with a hand crank, casements are a flexible option for use alone, in series, or in combination with awning or specialty shape windows.

### Unmatched Performance

**Tricore™ Frame Technology** features extruded aluminum exterior cladding that's easy to maintain and stands up to the harshest elements. With corners welded to prevent water penetration, the multi-chambered composite sub-frame is not only impervious to moisture, but also acts as a thermal barrier.

### Refined Security

The **concealed lock system** provides a clean appearance with a single lever lock that engages all lock points on the sash.

### Effortless Operation

European engineered **premium hardware** makes opening and closing even the largest units feel effortless. Also available in our sleek, contemporary hardware option.

### Push-Out Casement Windows

Our **push-out casement** windows offer unique design options as an alternative to operator casement windows. It operates easily with just a turn of the handle featuring the latest technology with traditional and minimalist look and feel. View hardware options on page 38.

# LET IN THE BREEZE, KEEP OUT THE RAIN

Awning windows are a great choice for creating imaginative, contemporary designs that let you control ventilation. Hinged to swing out from the bottom, they're an ideal component for finishing dramatic and functional expanses of glass.

## Design Without Compromise

Our low profile design utilizes **nested folding cranks** to create consistent visual harmony from the window detailing to the hardware. The handle folds neatly out of the way so it won't interfere with the window treatment. Available in a variety of finishes for a custom look.

## Corrosion-Resistant Hardware

Stainless steel hinge arms are **designed to resist rust** and corrosion to provide a lifetime of smooth operation. The heavy gauge steel also provides superior strength and stability to keep open windows securely in position.

## Unmatched Performance

**Tricore™ Frame Technology** features extruded aluminum exterior cladding that's easy to maintain and stands up to the harshest elements. With corners welded to prevent water penetration, the multi-chambered composite sub-frame is not only impervious to moisture, but also acts as a thermal barrier.

## Low Maintenance Exterior

The aluminum-clad exterior **stands up to years of exposure** in the harshest environments.

## All-Weather Ventilation

Our awning windows give you **greater control over airflow**.

## AWNING WINDOWS

### WINDOWS SHOWN:

**Configuration:** Awning

**Interior Finish:** Pine with Prefinished White

**Hardware Finish:** White

**Features:** Insulated Low-E with Argon

## SLIDER WINDOWS

### WINDOWS SHOWN:

**Configuration:** Double Slider

**Interior Finish:** Mixed Grain Fir  
with Clear Satin Stain

**Hardware Finish:** Black

**Features:** 5/8" Simulated Divided Lite

## A BOLD OUTLOOK

Narrow sash. Clean lines. A simple and beautiful design that provides a wide-open view to the world. The Premium Series slider window is ideal for creating maximum ventilation with minimal space. Our innovative four-point roller system ensures silent, smooth operation for the life of the window and comes in a variety of color, style, material, and finishing options — giving you ultimate freedom to choose.

### Experience Premium Ease

Experience the ultimate in ease of use with the Premium Series slider. With its **flush mounted latches** that let the sash tilt in and be removed, these windows are effortlessly cleaned and maintained.

### Comfort in any Climate

Designed with an **integral weep system** to divert water away from your home's interior, our **performance sill options** ensure perfect function in any weather condition.

### Fresh New Perspective

Utilizing a streamlined design with **dual tandem wheel assemblies**, slider windows open horizontally rather than vertically. As a result, the sash opens smoothly with little effort, each time.

### Customizable Combinations

Personalize your space by choosing from **numerous options**, completely tailored to your tastes and needs. Slider windows can be structured with end vents, and in double or triple configurations, to achieve any desired goal — like letting in more natural light and fresh air to ensure you feel perfectly at home.

EQUAL LITE

END VENT

END VENT (EQUAL LITE)

# ENDLESS OPTIONS TO FRAME YOUR WORLD

Let your thoughts take shape with our Premium Series specialty shape windows. Choose among limitless sizes, shapes and styles – as well as finishes, colors and materials – to create a unique architectural flair all your own. But the benefits don't end there; these windows still offer all of the energy efficiency and durability we're known for.

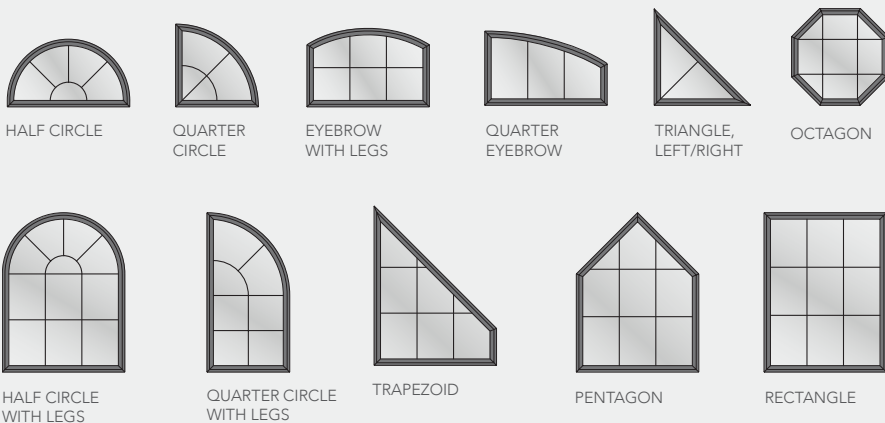

SIMULATED SASH

STANDARD FRAME

## Creativity Knows No Bounds

**Contemporary sleek design** provides abundant light in any room, as the glass is directly glazed into the frames of our specialty shape windows. The **simulated sash** option gives the appearance of a true sash window with the performance of a direct-set, stationary option.

## Dreams Take Shape

Satisfy your creative urges with a wide range of window **shapes and sizes** to perfectly suit your space.

In addition to the Premium Series direct-set windows shown here, the following shapes are also available: Arch Top, Diamond, Hexagon, Parallelogram, Full Circle and other custom shapes upon request.

# SPECIALTY SHAPE WINDOWS

## WINDOWS SHOWN:

- Configuration: Direct Set
- Interior Finish: White Poly
- Exterior Color: White
- Glass: Insulated Low-E with Argon

## BI-FOLD WINDOWS

### WINDOWS SHOWN:

**Configuration:** Bi-fold Window  
**Interior Finish:** Character Alder  
with Clear Satin Stain  
**Exterior Color:** Blue Hill  
**Features:** U-Channel Sill

# WINDOWS WITHOUT LIMITS

Create a statement piece that is as striking as it is functional. Our bi-fold windows provide effortless operation and wide open views that can be perfectly tailored to any space — without compromise. Utilizing the same innovative design as our best-selling bi-fold doors, these windows combine a crisp, clean aesthetic with abundant fresh air and a range of premium style options.

## The Setup That's Right for You

Our bi-fold windows are available in a variety of configurations to ensure they best suit your needs. With anywhere from **two to eight panels**, virtually any size opening can be accommodated. Panels fold neatly into a non-pocketed configuration that showcase the beauty of your windows at all times.

# AN OPEN INVITATION TO THE OUTDOORS

Our sliding patio doors let you effortlessly open up your home to a balcony, patio, pool deck or backyard. These architectural-grade panels give you a myriad of choices for exterior and interior finishes to achieve the perfect look for your home and bring the outdoors in.

### Security

The **2-point lock** on Premium Series sliding patio doors ensures safety and security. Also available as a 3-point, which includes three lock points along the jamb on the top, bottom and middle.

### Easy Operation

Sliding panels feature a **dual tandem design** with ball bearing wheels. These heavy-duty, high performance rollers are designed for a lifetime of smooth operation.

### Resists Weathering

Your patio doors are all that stand between you and the rain, The patio door sills are engineered with non-wood materials for **superior resistance** to temperature extremes, moisture and rotting.

### Design with Style

Premium Series sliding patio doors are available in two distinctive rail heights: the **thicker, classic French rail** for a traditional look or the **contemporary narrow rail** for a more modern aesthetic. All are available with up to four panels and can be combined with sidelites or transoms for added elegance and drama.

## HINGED PATIO DOORS

### DOOR SHOWN:

- Style: French Hinged Patio Door
- Interior Finish: Pine with Prefinished White
- Hardware Finish: Oil-Rubbed Bronze
- Features: 2-1/4" Premium Panels

# GRAND OPENINGS

Open your home to the great outdoors and get swept away by our Premium Series hinged patio door. With its traditional styling and French door operation, it embellishes entrances with timeless architectural grace. Daylight and fresh air flows freely into any space while endless design combinations allow for your home to shine uniquely amongst the crowd.

### Pillar of Strength

Each patio door panel is made with structurally sound **Laminated Veneer Lumber (LVL)**. Solid, heavy-duty 3/4-inch wood dowels connect the panels.

### The Choice is Yours

Special projects require special doors. Upgrade to a heavy **2-1/4" thick panel** and feel the difference.

### Quality that Lets You Rest Easy

Standard handles include **three-point locking hardware** that secures the active panels at the top, middle and bottom. A carefully curated selection of designer hardware collections available at [weathershield.com](http://weathershield.com).

EYEBROW DOOR

ARBOR SERIES DOOR

CENTER-HINGED DOOR

FULL RADIUS DOOR

### Keep Your Options Open

If it comes down to options, our hinged patio door brushes all competition aside. These doors are available in a **wide variety of styles** and operations. Inswing or outswing door operations can accommodate the room arrangements. Raised panel doors, Arbor Series designs and either eyebrow or full radius panels provide endless choices for almost any architectural style. Whatever your design, the Premium Series hinged patio door has the solution.

# OPEN THE DOOR TO INNOVATION

Experience luxe, minimalistic design that maximizes your space. Our multi-slide doors offer exceptional efficiency, clean lines and panoramic views — creating a seamless transition between your home and the great outdoors. With options as expansive as 50 feet wide and 10 feet high, all you have to do is accept nature’s open invitation.

## The Choice is Yours

Complement any design with **flush hardware** in customizable finishes that are both contemporary and timeless. With intuitive, anti-slam technology and a **two-point locking mechanism** for added security, our hardware is the perfect addition to both pocket and stacked multi-slide doors.

## Thermally Efficient Frame

Designed to meet some of the most stringent codes in the country. This **redesigned frame system** combines fiberglass pultrusion with the aesthetics of aluminum cladding for outstanding overall performance.

## Quad Rollers

Even the heaviest panels roll with ease due to a **unique four roller system**. The rollers can be adjusted from the ends of the panels leaving the face of the door free from unsightly adjustment holes.

## Configured Just For You

Striking the perfect balance between beauty and utility, our dynamic multi-slide doors are the perfect solution whether you’re entertaining guests or enjoying unobstructed views. **Available in a variety of groupings** ranging from two to ten panels, they can also be hidden inside the wall in a pocketed configuration or act as traditional sliding doors with one panel remaining exposed when fully open.

# GIVE YOUR SPACE A FRESH PERSPECTIVE

Our bi-fold doors work in any setting, with any style — allowing you to open your home to nature and experience the absolute best of indoor/outdoor space. Choose from contemporary and traditional designs, custom finishes and configuration options of two to eight panels.

### Superior Aesthetics

The **innovative hardware** offers superior aesthetics and intuitive operation while eliminating visible interior hinges.

### Optimum Operation

The **concealed shoot bolt system** releases the shoot bolts while providing a handle for ease of operation when opening the panels.

### Optimum Operation

Bi-fold doors open and close with a whisper, utilizing the **highest-grade bearings** made with stainless steel and corrosion-resistant polymers. Our remarkable **roller system** has been tested to fifty thousand cycles without failure — making it as reliable as it is unique.

## Superior Engineering

Our expanded sill offering is available on our bi-fold doors and windows; improving performance levels and allowing design flexibility with any project. Visit our website for detailed specifications.

# GRILLE & GLASS OPTIONS

## REFLECTIONS OF QUALITY

From specialty glass to high-end glazing, our windows are truly a cut above the rest. Add color and texture options to the glass in your home while enjoying the energy efficiency and quality for which we're known best.

### Specialty Glass Options

Add color or texture — or privacy and modesty — to your palette of design options. Special finishes and tint can give a project distinction. Specialty glass includes bronze, gray, rain and obscure.

### High Quality Glaze

Maximize your windows' energy efficiency with the exclusive **Zo-e-shield® glazing system**. With powerful layers of Low-E coating, and inert gas-filled insulating airspace, our glazing options represent the ultimate in energy efficiency for any climate.

### Glazing Options

#### Insulated Low-E

##### All Climate

- Minimizes the sun's heat and damaging UV rays in warmer months
- Reflects the sun's heat back into room during cooler months

#### Zo-e-shield 5

##### Ultimate Solar Control

- Strong resistance to the sun's glaring heat
- Excellent insulating value.
- Excellent protection against damaging UV rays
- Maintains great clarity

#### Zo-e-shield 5E

##### Plus Room Side Low-E

- Combination of two low-e coatings
- Significantly improved energy efficiency
- Complies with northern Energy Star guidelines with interior LoE i89 coating

#### Zo-e-shield 5 Plus

##### Laminated Interior

- Best resistance available to the sun's heat
- Minimizes glare and visible light transmittance
- Superior sound control and UV protection

#### Zo-e-shield 7

##### Triple Glazed with 5 Coats of Low-E

- Great insulating value
- Controls glare and blocks the sun's heat in warmer months
- Excellent for use in all climate regions

### Putty Exterior Aluminum Profile

### Colonial Interior Wood Profile

### Putty Interior Wood Profile

### Square Interior Wood Profile

### Innovative Design; Classic Appeal

The best of modern energy efficiency meets old-world charm in **Simulated Divided Lite (SDL)** grilles. While mimicking the look of classic single-pane windows, SDL grilles offer exterior and interior grille bars either with or without an aluminum spacer bar — translating to powerful insulation and innovation.

### Framed With You in Mind

Featuring a unique **perimeter grille frame design** that rests on the inside of the unit, Weather Shield windows employ a concealed pin system to snap the perimeter grille frame securely into place. These grilles can be easily removed in order to clean the entire interior glass surface.

### Grilles Between the Glass

**Airspace Grilles** seal aluminum grille bars in either a sculpted or flat design between two panes of glass. Resulting in a classic aesthetic that is easy to clean and maintain.

11/16" SCULPTURED

5/8" FLAT

## SCREEN & TRIM OPTIONS

## SCREEN AND TRIM OPTIONS

Weather Shield's high-visibility screen options maximize your view and allow more light to flow in. Then add unparalleled design flexibility and customization with our wood interior and aluminum exterior trim options. Available for curved and angle-shaped windows and doors, adding distinctive architectural detail.

### Screen Options

Screens allow you to enjoy fresh air flow throughout your home all while keeping out pesky insects. Our High-Visibility, No See-um screen cloth utilizes a much finer mesh that offers more air flow along with better optical clarity. Also available in aluminum, non-glare mesh.

### Retractable and Wood Screen

Our **retractable screen** offers unmatched operation with a fully concealed screen channel that maximizes your viewing area. Engineered brake system allows for hands free operation and smooth screen retraction with fully concealed screen components creating a tailored upscale aesthetic.

Hinged from the side, and easily removed for repairs or maintenance, our **wood hinged screen** option welcomes the natural wood character into your home.
